COLLIMATE YOUR TELESCOPE WITHOUT TOOLS

It's easy . . . just grab a Bob's Knob and turn. You can even do it while looking through the eyepiece on most scopes. And you'll never drop that pesky little Allen wrench or screwdriver in the grass again. Installation is a snap. Knobs are available for no-tools setup of many popular mounts. You can order directly from www.bobsknobs.com using your credit card. Check our website for more details.
